

**“I love being able to make patients’ lives better.”**

**About Minhtram Thai, MD**

As a podiatry specialist and foot and ankle surgeon, Dr. Minhtram Thai, says “I love being able to make patients’ lives better.” It’s always been her focus—since she was a child—and those dearest to Dr. Thai inspire her to provide the best level of care. “Seeing the seniors in my family struggle in their daily activities, due to complications of diabetes, motivated me to prioritize seniors and gives me deeper insight for improving their quality of life,” she shares.

When Dr. Thai isn’t providing compassionate care or keeping up with advances in podiatry, she loves going to her daughter’s soccer games and helping her practice. Dr. Thai also looks forward to visiting Vietnam, where she grew up.
