“I love that I can not only treat my patients, but also help them see healthcare as a lifestyle of preventing illness.”

About Anuj More, MD

Dr. Anuj More was 16 years old when he was inspired to become a physician. He had been volunteering at a nursing home and realized the level of care elderly patients need and deserve. Though Dr. More has worked with patients of all ages in hospitals and clinics, he’s proud to now be focused on caring for seniors.

“I love that I can not only treat my patients, but also help them see healthcare as a lifestyle of preventing illness,” Dr. More says. “My favorite part, though, is probably the social interaction, and making them laugh.”

In his personal time, Dr. More enjoys spending time with his wife and three kids.
