“It’s rewarding to help today’s seniors live better by providing solutions for their foot ailments. I also love to learn about their lives; it often helps me uncover solutions.”

About Sapan Amin, DPM, DABPM

Dr. Sapan Amin has wanted to help people as a physician since he was in middle school—when he volunteered with the American Red Cross for hurricane disaster relief. He chose the path of a board-certified podiatrist after seeing close family members struggle with foot ailments and doing what he could for them, even as a child. “It’s rewarding to help today’s seniors live better by providing solutions for their foot ailments. I also love to learn about their lives; it often helps me uncover solutions.”

When Dr. Amin isn’t building bonds with patients or keeping up with advances in podiatry, he likes to spend time with his wife. He also enjoys being outdoors, gardening, and traveling. Dr. Amin’s favorite trip so far was to Kenya, Africa.
