

“I get excited each day to partner with my senior patients. It’s their sacrifice that builds the foundation we stand on, and I’m truly honored to help them achieve their health goals.”

About Mohammed Adnan, DO

Dr. Mohammed Adnan became a physician to make a positive impact for individuals and give back to the community. “I get excited each day to partner with my senior patients,” says Dr. Adnan, who is board certified in family medicine. “It’s their sacrifice that builds the foundation we stand on, and I’m truly honored to help them achieve their health goals.” To do that, he provides VIP care and empowers patients to make small but consistent changes. Most of all, Dr. Adnan enjoys listening to the wisdom that his patients share.

In his down time, Dr. Adnan reviews journal articles to keep up with medical research. He also loves to travel and see national parks. Dr. Adnan has hopes of visiting Doubtful Sound in New Zealand as well.
