

“I’ve always enjoyed building relationships with seniors and I’m dedicated to making a difference in their lives.”

About John Martino, MD

Ever since Dr. John Martino volunteered at retirement homes and residential care facilities as a teenager, he’s wanted to care for others. “I’ve always enjoyed building relationships with seniors,” he says, “and I’m dedicated to making a difference in their lives.” For Dr. Martino, that means treating patients with compassion, always being available, and applying his knowledge and expertise to diagnose and treat puzzling medical problems.

When he’s not with patients, Dr. Martino likes to keep up with medical research, spend time with his loving family, play guitar, shoot photos and videos, travel, and stay active outdoors. Some of his favorite ways to do that are through soccer, ice hockey, basketball, and skateboarding.
