“To create such a bond while positively impacting the lives and health of my patients is the most gratifying part of my job.”

About Carla Rodriguez, DNP-BC

Dr. Carla Rodriguez’s love for helping those in need led her to become an advanced practice nurse. She loves connecting with patients and explains, “To create such a bond while positively impacting the lives and health of my patients is the most gratifying part of my job.” She takes pride in providing quality care and strives to always address patients’ concerns. “I will never stop working to find solutions for my patients,” she says. She loves making patients laugh and wants them to know she genuinely cares about each of them. “I want their visits to be just as fulfilling as they are productive,” she says.

When not with patients, Dr. Rodriguez can be found completing DIY projects. She also loves watching scary movies.
