

**“I want to make a difference in my patients' lives by providing VIP patient care with love, accountability, and passion.”**

#### **About Keysha Bryer, MSN, FNP-C**

Keysha Bryer always knew she wanted to pursue a career in healthcare. She explains, “I want to make a difference in my patients’ lives by providing VIP patient care with love, accountability, and passion.” Her favorite part of her profession is seeing her patients “increase their level of function.” She actively listens and treats patients with understanding and honesty to help build trust. She considers herself a “jokester and easy to get along with.” She views and treats her patients “like human beings and not just a number.” If she could change anything about healthcare today, she would increase accessibility and affordability.

When not caring for patients, Keysha Bryer loves decorating, painting, dancing, and trying new arts and crafts.
