“I listen to the patients and allow them to control the narrative of the conversation.”

About Sabrina White, DNP, MSN, CHFN, APRN, ACNP, BC

Sabrina White knew at a young age that she wanted to become a nurse practitioner, leading her to begin a nursing program during high school. With over thirty years of nursing experience, she is dedicated to providing patients with “the best care possible.” She explains, “I listen to the patients and allow them to control the narrative of the conversation.” She values patient-centered care and loves educating patients. She especially enjoys caring for the senior population. “They require much time and attention but are also very grateful for the care you provide,” she explains.

In her free time, Sabrina White enjoys listening to music, riding her bicycle, and reading. She also loves arts and crafts, especially ones that involve glitter.
