

**“What I truly love about being a physician is the opportunity to serve as a health coach for my patients, guiding and supporting them on their journey to well-being.”**

#### **About Inigo Atienza, MD**

For Dr. Inigo Atienza, “being in healthcare is a cherished family legacy.” Inspired by his grandmother and father, he explains, “What I truly love about being a physician is the opportunity to serve as a health coach for my patients, guiding and supporting them on their journey to well-being.” He always listens to his patients’ concerns and love empowering them “through compassionate support and guidance.” If he could change anything about healthcare today, he would increase accessibility, simplify the process, and ensure that “well-being remains at the forefront.”

In his free time, Dr. Atienza enjoys going to farmers markets and antique stores. He also likes listening to live music and caring for his houseplants.
