“I enjoy providing my senior patients with the love and care they need to have a better life.”

About Pallavi Pradeep, MD

For as long as Dr. Pallavi Pradeep can remember, she has wanted to be a doctor. She was inspired to pursue a career in medicine by her grandfather, who worked as a radiologist. “Being able to solve problems and improving someone’s health” is her favorite part of her profession. She strives to understand each patient’s needs and emphasizes the importance of preventative care and early diagnosis. She especially enjoys providing her senior patients with “the love and care they need to have a better life.” To keep up with the latest medical advancements, she attends conferences and reads medical journals and guidelines. She also has knowledge and experience on endocrinology, diabetes, and lipidology.

Dr. Pradeep loves starting her weekend mornings with Pilates. She also enjoys cooking and trying new restaurants.
