

“I love getting to know my patients and guiding them in their care.”

About LaQuinya Stipe, MSN, FNP

LaQuinya Stipe always knew she wanted to be a nurse. “I love getting to know my patients and guiding them in their care,” she says. She believes in “meeting patients where they are” and treating every patient with “passion, positivity, and a warm smile.” She explains that by working with patients, they can “grow and develop together.” She adds, “I have truly enjoyed providing care for the adult population, especially seniors.” If she could change anything about healthcare today, she would lower costs and improve communication between healthcare providers.

In her free time, LaQuinya Stipe loves enjoying quality time with her family, especially her one-year-old son. She also likes binge-watching her favorite television shows.
