

**“I enjoy educating my patients on ways to improve their health by explaining their treatment process, which in turn, improves their overall well-being and quality of life.”**

#### **About Shaunte Jackson, MSN, APRN**

Shaunte Jackson knew at a young age that she wanted to work in healthcare. She loves caring for others and finds it very rewarding to positively impact her patients' lives. She is passionate about preventative care. “I enjoy educating my patients on ways to improve their health by explaining their treatment process, which in turn, improves their overall well-being and quality of life,” she explains. She takes pride in building strong patient-provider relationships through honesty and “meeting them where they are.” She particularly enjoys caring for the senior population. “They have the best sense of humor, and they are full of wisdom,” she says.

When not caring for patients, Shaunte Jackson loves traveling and exploring new places.
