“When a person knows better, they can do better. So, I educate my patients on what is important at this time in their lives.”

About Yvonne Allen, FNP-C

Yvonne Allen’s passion for healthcare can be traced back to receiving the game Operation and a toy medical bag as a child. She wants patients to feel important and heard. She explains, “I turn on my ears and ask questions to find just what makes them excited.” She adds, “I am just as open to questions and meet them where they are.” She wants her patients to understand the ‘why’ of their care. “When a person knows better, they can do better. So, I educate my patients on what is important at this time in their lives,” she explains.

Yvonne Allen can be found spending her free time with her family. She shares that she likes collecting bells while traveling and wants patients to know that the Christian faith is important to her.
