“I will work hard to improve the lives of the patients I work with.”

About Erin Gundersen, MD

Dr. Erin Gundersen was inspired to pursue medicine to make a positive difference in people's lives. She chose to focus on the senior population out of a genuine desire to improve their quality of life and provide meaningful support to both patients and their families. Dr. Gundersen builds strong bonds through sincere, attentive listening — approaching every patient with genuine interest and empathy. "I listen intently to my patients' needs and concerns," she says. By showing respect and earning trust, she creates a positive and lasting impact in the lives of those she serves. "I will work hard to improve the lives of the patients I work with," she says.

When not with patients, Dr. Gundersen loves kayaking on lakes and rivers, embracing the peace and beauty of the outdoors.
